Transcription	What is going to happen when you finally post that video online and to have people interact with it and connect with you. It's so amazing and that is another thing that keeps pushing me forward. It's keeping me on my BlushingForward journey is being able to share with the viewers and put my opinions out there. Its just something that I never thought I would be able to do and I am quite enjoying it. So definitely connecting with others and seeing what they think and bouncing ideas off of them.
